

CSR PROJECT PROPOSAL

‘SWASTHYA SAHELI’

**Menstrual Hygiene Awareness Program
for Adolescent Girls in Rural & Urban Government Schools
Ahmedabad District, Gujarat, India**

A Corporate Partnership Opportunity

CSR Project Proposed by

Gujarat Rajya Gram Vikas Samiti

Facilitated by:

1. Executive Summary:

Menstrual health and hygiene remains a significant yet neglected challenge for adolescent girls in rural India. Lack of early awareness, social stigma, and misinformation leave young girls unprepared for menstruation, leading to fear, poor hygiene practices, health risks, and school absenteeism—especially among girls aged 9–13 years.

Swasthya Saheli – Menstrual Hygiene Awareness Program is a focused CSR initiative proposed by **Gujarat Rajya Gram Vikas Samiti (GRGVS)**, an experienced non-profit with over 37 years of work in community development across Gujarat. The project aims to improve menstrual health awareness, emotional preparedness, and hygienic practices among adolescent girls studying in rural government schools of Ahmedabad district.

The program adopts a **preventive, school-based approach** through interactive awareness sessions led by trained female facilitators, use of culturally appropriate Gujarati IEC materials, distribution of menstrual hygiene kits, and orientation of female teachers for continued support. Implementation will be completed within **1 year**.

The project aligns with national priorities including **RKSK, Menstrual Hygiene Scheme, Beti Bachao Beti Padhao, Swachh Bharat Mission, and NEP 2020**, and qualifies under **Schedule VII of the Companies Act, 2013**. With a total project cost of **₹5, 00,000**, GRGVS seeks CSR partnership support from your esteemed company to create measurable impact in adolescent health, education continuity, and empowerment of rural girls with dignity and confidence.

2. About Gujarat Rajya Gram Vikas Samiti (GRGVS) :

Gujarat Rajya Gram Vikas Samiti (GRGVS), established in 1988, is a registered nonprofit organization with over 37 years of experience in implementing community-based development projects across Gujarat.

Legal & Statutory Compliance:

- Public Trust Registration No. F/308
- CSR Registration No. CSR00014330
- Income Tax Registration 12AA & 80G
- NITI Aayog ID: GJ/2018/0217432.

Impact Track Record:

- 500,000+ trees planted
- 50+ session on Promoting Menstrual Hygiene in Government Schools
- 1,100+ rainwater harvesting systems
- 50+ Anganwadi centers
- 20,000 individual house hold latrine. + 700 School Sanitation Units.

3. Alignment with Government Policies & Schemes :

The proposed project aligns with key **Government of India and Government of Gujarat** initiatives:

- Menstrual Hygiene Scheme (MHS) – Promotion of safe menstrual practices
- Beti Bachao Beti Padhao – Education and dignity of girls
- Swachh Bharat Mission (Gramin) – Hygiene and sanitation
- National Education Policy (NEP 2020) – Health and well-being of school children
- Rashtriya Kishor Swasthya Karyakram (RKSK) – Adolescent health and hygiene

This project aligns with Schedule VII of the Companies Act, 2013, particularly under:

- Item (i): Promoting health care including preventive health care and sanitation;
- Item (ii): Promoting education; and
- Item (iii): Promoting gender equality and empowering women.”

This project directly contributes to the **UNSDG** : United Nations Sustainable Development Goals, particularly **SDG 3: Good Health and Well-Being**, by promoting menstrual health, hygiene, and preventive healthcare among adolescent girls, and **SDG 5: Gender Equality**, by empowering girls with knowledge, dignity, confidence, and equal opportunities to participate fully in education and community life. The project qualifies under scheduled VII of companies Act 2013 under the following heads

4. Background and Need :

Menstrual health and hygiene is a vital yet often neglected aspect of adolescent health in rural India. Menstruation continues to be surrounded by stigma and misinformation, leaving young girls unprepared for the physical and emotional changes associated with puberty.

To address the concern with more seriousness, in a landmark judgment delivered on **January 30, 2026**, **the Supreme Court of India officially declared that the right to menstrual health and hygiene is an integral part of the Right to Life and Dignity under Article 21 and the Right to Education under Article 21A of the Constitution**. The Bench, comprising **Justices J.B. Pardiwala and R. Mahadevan**, used powerful language to emphasize that **biological processes should not lead to social or educational exclusion**: The case, **Dr. Jaya Thakur v. Union of India**, transformed menstrual hygiene from a "welfare measure" into a binding **Fundamental Right**.

Did you know that one in four girls in India, aged between 10 and 19 years, miss their schools and colleges due to menstruation? A 2019 report by Dasra, a development organisation, reveals that millions of girls drop out of school every year due to lack of proper menstrual hygiene management facilities. Most of the schools do not even ensure the availability of sanitary pads for the students. A recent UNICEF study also pointed out that over 71% of adolescent girls remain unaware of their menstrual cycle until they get their first period. Many of them drop out of school after getting periods.

Key challenges include:

- Lack of pre-menarche awareness
- Unsafe menstrual practices
- Social stigma and myths
- School absenteeism
- Reduced confidence

5. Problem Statement :

Adolescent girls in rural schools face:

- Limited awareness before menarche
- Fear, anxiety, and embarrassment
- Myths and social stigma
- Poor hygiene practices
- Increased health risks
- **20–30% school absenteeism during menstruation**, as reported in Indian studies

Girls aged **9–13 years** are especially vulnerable due to lack of early guidance.

Early, school-based menstrual hygiene education combined with access to hygienic products leads to better health outcomes, improved confidence, and uninterrupted education. The project adopts a **preventive, low-cost, high-impact CSR approach**.

6. Goals & Objectives

Overall Goal

To improve menstrual health awareness and hygienic practices among adolescent girls aged **9–13 years** in rural schools of Ahmedabad district.

Specific Objectives

Provide age-appropriate menstrual health education

1. Prepare girls emotionally for puberty
2. Promote hygienic practices
3. Reduce stigma and myths
4. Improve school attendance and confidence

7. Strategies and Activities

Awareness & Education

- Interactive school-based sessions
- Use of Gujarati IEC materials
- Topics: puberty, menstruation, hygiene, nutrition, myths

Product Support

- Distribution of menstrual hygiene kits
- Demonstration of correct usage and disposal

Teacher Engagement

- Orientation of female teachers for follow-up support

8. Implementation Plan

The project will be implemented in selected **Government schools in Rural and Urban areas of Ahmedabad district, Gujarat**, in coordination with school authorities and local education officials. The program will target **1000 adolescent girls aged 9–13 years**.

Key implementation steps include:

- Identification and selection of rural government schools
- Coordination and permission from school authorities
- Conduct of interactive menstrual hygiene awareness sessions by trained female facilitators
- Distribution of menstrual hygiene kits to **1000 students**
- Orientation of female teachers for follow-up guidance and support
- **Project Duration:** 1 year.

Total Beneficiaries: 1,000 adolescent girls

9. Expected Results

- Improved menstrual health knowledge
- Increased confidence and preparedness
- Adoption of hygienic practices
- Reduced stigma
- Improved school attendance.

10. Monitoring & Evaluation

- Pre- and post-session assessments
- Attendance and distribution records
- Feedback from students and teachers
- Photo documentation
- CSR impact and utilization reports

11. Tentative CSR Budget : Subject to Change as per total number of girls.

S. No	Head	Description	Amount (₹)
1	Awareness & Resource Persons & Trainer	Menstrual hygiene awareness sessions for 1,000 adolescent girls in government schools	₹ 175,000
2	Menstrual Hygiene Kits	Sanitary napkins & hygiene kits for 1,000 girls	₹ 100,000
3	IEC Material	IEC Material (Gujarati language)	₹ 100,000
4	Field Coordination & Travel	School visits, coordination, logistics & outreach for larger coverage	₹ 75,000
5	Monitoring, Documentation & Reporting	Impact tracking, photographs, CSR report and Utilization Certificates	₹ 25,000
6	Administrative & Contingency Expenses	Office expenses, communication	₹ 25,000
	Total Project Cost	Approximate Budget Amount	₹ 500,000
